

Table of Contents

The Green Lion's Preface	vii
Acknowledgmentsxi
To the Readerxiii
Editor's Introduction to First Series	1
Experimental Researches in Electricity First Series	29
Editor's Introduction to Second Series	81
Experimental Researches in Electricity Second Series	91
Editor's Introduction to Third Series	135
Experimental Researches in Electricity Third Series	143
Editor's Introduction to Seventh Series	183
Experimental Researches in Electricity Seventh Series	195
Editor's Introduction to Eleventh Series	215
Experimental Researches in Electricity Eleventh Series	229
Editor's Introduction to Twelfth Series	301
Experimental Researches in Electricity Twelfth Series	309
Editor's Introduction to Fifteenth Series	335
Experimental Researches in Electricity Fifteenth Series	339
Editor's Introduction to Nineteenth Series	361
Experimental Researches in Electricity Nineteenth Series	369
Editor's Introduction to Twentieth Series	379
Experimental Researches in Electricity Twentieth Series	385
Editor's Introduction to Twenty-First Series	415
Experimental Researches in Electricity Twenty-First Series	421
Editor's Introduction to Twenty-Sixth Series	443
Experimental Researches in Electricity Twenty-Sixth Series	451
Editor's Introduction to Twenty-Eighth Series	475
Experimental Researches in Electricity Twenty-Eighth Series	481
Editor's Introduction to Twenty-Ninth Series	519
Experimental Researches in Electricity Twenty-Ninth Series	527
Editor's Introduction to Faraday's On the Physical Character of the Lines of Magnetic Force	555
Faraday's On the Physical Character of the Lines of Magnetic Force	563
Bibliography	601
Index	605
Biographical Note on Howard Fisher	619
